Dr. Jeffrey Brenner, MD is a family physician that has worked in Camden, NJ for the past twelve years. Dr. Brenner owned and operated a solo-practice, urban family medicine office that provided full-spectrum family health services to a largely Hispanic, Medicaid population including delivering babies, caring for children and adults, and doing home visits. His life’s goal is to ensure that all families who live in urban, underserved communities receive high-quality, culturally competent, personalized family health care.

Recognizing the need for a new way for hospitals, providers, and community residents to collaborate, he founded and has served as the Executive Director of the Camden Coalition of Healthcare Providers since 2003. The Camden Coalition is a nonprofit organization, committed to improving the quality, capacity, and accessibility of the healthcare delivery system in Camden. Dr. Brenner’s work is dependent on building complex collaborations amongst three highly competitive hospitals, two local FQHC’s, social service providers, and small private medical offices in Camden. Through the Camden Coalition, local stakeholders are working to build an integrated, health delivery model to provide better care for Camden City residents.
