The Impact of Games and Play on Health

Thursday, December 1st, 2011 | 9:00am - 2:00pm | Amado Recital Hall, Irvine Auditorium, 3401 Spruce Street

RSVP at: http://www.cphi.upenn.edu/UpcomingCPHIEvents.shtml

Programs from across the University will be highlighted that focus on using video games to collect information about nutrition and exercise as well as influence facial perception skills in children with Autism Spectrum Disorder, and the impact of recess on children’s performance, health and well-being.

Keynote Presentation:

Paul Tarini, Senior Program Officer, Pioneer Portfolio, Robert Wood Johnson Foundation

Panel Discussions:

Amy Hillier, Assistant Professor, School of Design, University of Pennsylvania

Bob Schultz, Director of the Center for Autism Research (CAR), Children’s Hospital of Philadelphia

Mary Summers, Lecturer, Political Science/Health and Societies, School of Arts and Sciences, University of Pennsylvania
